Extra Practice (1.6)

Graph each point on the coordinate system. (lesson 1.6)

- 1)  $A(2,5)$                       2)  $M(6,4)$                       3)  $V(3,7)$

- 4)  $R(5,0)$                       5)  $W(0,6)$                       6)  $B(8,3)$

Write the ordered pair that names each point

- 7) N                      8) B                      9) H

- 10) K                      11) D                      12) X

Express each relation as a table and as graph. Then determine the domain and range.

- 13)  $\{(3,7), (1,1), (6,5), (2,4)\}$

- 14)  $\{(0,3), (5,7), (1,8)\}$

x	y

x	y

- 15)  $\{(2,3), (3,2), (1,7), (7,1)\}$

- 16)  $\{(5,4), (0,2), (2,0), (8,3)\}$

x	y

x	y
