

Serving a lunch that nourishes the body and fuels the minds of children is our focus. We procure top quality ingredients and create a variety of nutritious food that students will enjoy eating.

Our chefs prepare real and healthy food each day that will delight your children. Our meals are balanced, and free of trans fats, steroids, hormones, or genetically modified organisms.

Meals are “Kid Friendly” and are prepared using the freshest, local, natural and organic ingredients available. The complete meal includes an entrée, fresh vegetables and fruit. A healthy ‘a la carte’ selection will also be available for those in the fourth grade and above.

We look forward to serving the Saint Simon community.
